Task Breakouts

BioRDF (Star meeting room, HCLS)

- Participants: Kei Cheung (day 1 and possibly day 2), Scott Marshall, Eric Prud'hommeaux, Marc-Alexandre Nolin, Francois Belleau
- Goals: Identify additional types of data that can be incorporated into HCLS KB's. Discuss how to expand the current tasks (query federation and aTags). Develop additional use cases. Discuss the possibility of creating new activities (e.g., AIDA and Wiki).
- Alignment with other tasks: discuss opportunities to collaborate with other task groups such as LODD, Scientific Discourse, and Terminology

Pharma Ontology and LODD (room 346 HCLS3)

- Participants: Susie, Elgar, Bosse, David, Michel
- Goals: discuss content for the ICBO poster, identify classes and predicates in the template ontology, and if time permits start to define use cases
- Alignment: Ontology could be used by LODD, potential overlap with terminology and Scientific Discourse
Bio Process

(signaling, complex formation, metabolism)
Scientific Discourse (room 631 HCLS2)

- Participants: Tim, John M., Carl, Paolo, John B., Annamaria C.
- Goals: (1) define alignment path with Terminology (2) alignment path with Experiment (3) lay out activities roadmap for next year
- Alignment with other tasks: See above
